

GemX™ IntelliFresh® Dispenser and Warmers

GEM3XRBA026*
1.5 Gal. Dispenser, FreshTrac

GEM5XSIFT10A026
Single Warmer Stand

GEM5XTIFT10A026
Twin Warmer Stand

■ Features

Next generation coffee dispenser. Modern design with large, color changing LED lights representing coffee freshness and volume.

Keep coffee fresher and longer. Double insulated stainless steel combined with an intelligent warming system. Keeps coffee fresh and hot for one hour, twice as long as glass carafe brewers.

Easy to clean. Large diameter lid allows for easy access to clean the interior. GemX dispensers are all digital, so there's no plastic site gauge to clean.

Increase cup quality and consistency. Restriction brew prevents brewing if old coffee is detected in the dispenser.

Mobile technology. Dispensers are easily movable from the brewer to a remote warming stand. The dispenser remembers when the coffee was brewed and maintains the appropriate LED color to indicate freshness.

No site gauge. Most coffee dispensers use an unreliable plastic site gauge that easily stains, clogs or leaks. GemX dispensers are all digital, eliminating these hassles while providing a more appealing visual experience.

Wrap around faucet guard. To prevent the faucet from accidental damage, GemX dispensers feature a faucet guard made with fiberglass-infused plastic.

Reduce waste. Designed with a sloped bottom to ensure all coffee is fully evacuated from the dispenser.

Quality and Volume Level Indicator

Fresh

The green LED will remain lit from 1 - 50 minutes after brewing

Warning

The yellow LED will appear for 10 minutes (50 minutes after brewing)

Expired

The red LED will appear 60 minutes after brewing
